Aspire practice rewards

For information on how the ASPIRE Training Series works and answers to frequently asked questions, keep scrolling. How do I get back to the ASPIRE Galderma Practice Rewards site? Can I retake the training at any time? Where can I view the user guides referenced in the course? Who do I contact for technical issues? Who do I contact if I have questions about the ASPIRE program? When you get the email / sms just click on the link to reset your password. Explore program materials to help your practice make the most of ASPIRE. When you sign up, you are assigned a unique ID. When checking in at a participating lounge, present your digital loyalty card on your device to the lounge agent. The lounge agent will scan your digital loyalty card and the points will be automatically added to your account. In lounge rewards, such as a free visit, can be redeemed by presenting a QR code to the lounge agent. *Aspire Rewards* is available to download from the App Store and Google Play right now. Can I collect points at all UK Aspire Lounges? Unfortunately not. Some overseas Aspire Lounges are not yet recognising the Aspire travel rewards scheme. Aspire lounges in the UK participate in the scheme, these are: Belfast City (BHD); Birmingham Birmingham (BHX); Edinburgh (EDI); Humberside (HUT); Inverness (INV); Liverpool (LPL); Manchester (T1 and T2) (MAN); Newcastle (NCL). Partner lounges (such as Club Aspire Lounges) and third party lounges (such as Glasgow Upperdeck Lounge) are not included in this scheme. The full and up-to-date list of participating lounges can also be found on the app itself, simply head to 'About'. I access your lounges through a card scheme, can I still collect points? You certainly can. Aspire lounge rewards aren't just for direct bookers, whether you access our lounges through a third party card scheme, through a frequent flyer scheme, or indeed any other method of entry, you are qualified to collect loyalty points. Please note, it is not possible to acquire points for a visit which is complimentary, as a result of a loyalty scheme or otherwise. However, those who book their visit direct at www.executivelounges.com do earn more points per visit. When do points expire? Your points will stay with you for 24 months from the date they were issued. Don't fear - when your points are close to expiry, we'll give you a nudge and remind you to use them before they disappear! I have a LoungeMiles card, can I still use this? It is no longer possible to collect stamps using LoungeMiles cards as this scheme was phased out in September 2020. No further LoungeMiles cards are being issued to lounges, so once your card is full and you have redeemed your free stay, it's time to move to the App! Please note that your stamps are valid for 24 months. Due to the impact COVID-19 had on travel in 2020, we will review LoungeMile stamp redemptions on a case by case basis. If you have stamps which you collected in 2018 and are yet to be redeemed, please contact a member of our team by emailing and we will review this. We support aesthetics professionals with expertise, the AART™ of injection, and business development. Enroll in GAIN below to complete the new, FDA-mandatory educational module to activate your Sculptra account and place your first order.* Learn how Sculptra works, how to prepare for administration, and injection techniques. Enroll in my GAIN training Your browser does not support the video tag. Download the Galderma GAIN app to stay connected 1-800-221-1749 inside.sales@galderma.com For questions regarding Sculptra product orders, please contact your Sculptra Account Manager. Educational resources are available through myGAINtraining.com, which provides training on the anatomy of the treatment area, effective patient assessment, and appropriate injection techniques. Healthcare professionals may contact Galderma for educational and training resources specific to the correction of fine lines and wrinkles in the cheek region. 1-800-221-1749 inside.sales@galderma.com Completion of device-specific use training is required and will be verified prior to purchase of Sculptra for the correction of fine lines and wrinkles in the cheek region for use in immune-competent subjects. Empower business growth. Strengthen patient relationships. ASPIRE Galderma Practice Rewards is a program designed to strengthen the relationship you build with your aesthetics patients. As your connection grows, so does your practice, and we're here to support both with valuable insights, product offers, and practice tools. Sculptra isn't like hyaluronic acid fillers. It's a long-lasting treatment that addresses collagen loss, an underlying cause of facial aging. Sculptra helps stimulate your patients' Type 1 collagen and targets fine lines and wrinkles, helps improve skin quality, and restores the skin's natural glow when injected into the cheek.1-5* Sculptra is made of poly-L-lactic acid (PLLA-SCA), which helps stimulate natural collagen to support the skin's structure, reduce wrinkles and improve skin quality when injected into the cheek area.1-5* Here's how it works: PLLA-SCA is injected into the deep dermis.2,4 PLLA-SCA microparticles recruit fibroblasts.2,4 The fibroblasts deposit new collagen in the tissue, helping reinforce the skin's inner structure and foundation.2-5 Sculptra. Instructions for Use. Galderma Laboratories, L.P., 2023. Goldberg D, Guana A, Volk A, Daro-Kaftan E. Single-arm study for the characterization of human tissue response to injectable poly-L-lactic acid. *Dermatol Surg*. 2013;39(6):915-922. Bohnert K, Dorzas A, Lorenc P, Sadick NS. Randomized, controlled, multicentered, double-blind investigation of injectable poly-L-lactic acid for improving skin quality. *Dermatol Surg*. 2019;45:718-724. Data on file. 43USSA1812EXT Clinical study report. Fort Worth, TX: Galderma Laboratories, L.P., 2022. Fitzgerald R, Bass LM, Goldberg DJ, Graivier MH, Lorenc ZP. Physicochemical characteristics of poly-L-lactic acid (PLLA). *Aesthet Surg J*. 2018;38(suppl 1):S13-S17. for Sculptra, for frown lines between the brows, including Distant Spread of Toxin Effect Boxed Warning at bottom of page. Sculptra® (injectable poly-L-lactic acid (PLLA-SCA)) is indicated for use in people with healthy immune systems for the correction of shallow to deep nasolabial fold contour deficiencies, fine lines and wrinkles in the cheek region, and other facial wrinkles. Indication: Sculptra® (injectable poly-L-lactic acid (PLLA-SCA)) is indicated for use in people with healthy immune systems for the correction of shallow to deep nasolabial fold contour deficiencies, fine lines and wrinkles in the cheek region, and other facial wrinkles. Sculptra should not be used by people that are allergic to any ingredient of the product or have a history of keloid formation or hypertrophic scarring. Safety has not been established in patients who are pregnant, lactating, breastfeeding, or under 18 years of age. Sculptra has unique injection requirements and should only be used by a trained healthcare practitioner. Contour deficiencies should not be overcorrected because they are expected to gradually improve after treatment. Sculptra should not be injected into the blood vessels as it may cause vascular occlusion, infarction or embolic phenomena. Use at the site of skin sores, cysts, pimples, rashes, hives or infection should be postponed until healing is complete. Sculptra should not be injected into the red area (vermillion) of the lip or in the peri-orbital area. The most common side effects after initial treatment include injection site swelling, tenderness, redness, pain, bruising, bleeding, itching and lumps. Other side effects may include small lumps under the skin that are sometimes noticeable when pressing on the treated area. Larger lumps, some with delayed onset with or without inflammation or skin discoloration, have also been reported. Sculptra is available only through a licensed practitioner. View the complete Instructions for Use. Aspire Health is a Medicare Advantage HMO plan sponsor with a Medicare contract. Enrollment in Aspire Health depends on contract renewal. Medicare beneficiaries may also enroll in Aspire Health through the CMS Medicare Online Enrollment Center located at www.medicare.gov. Every year, Medicare evaluates plans based on a 5-star rating system. For accommodation of persons with special needs at meetings call 1-855-579-1600 (TTY: 711) Other Providers are available in our network. Out-of-network/non-contracted providers are under no obligation to treat Aspire Health members, except in emergency situations. Please call our customer service number or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services. For a complete list of available plans please contact 1-800-MEDICARE (TTY users should call 1- 877-486-2048), 24 hours a day/7 days a week or consult www.medicare.gov.
